	Vilja Wall lamp The Vilja -luminaire, designed by Jenni Inkeroinen, brings a cozy feel to evenings at home. The warm glow emitted from the pattern in its shade is inspired by the golden grain-fields in August at at the moment when the last sun-rays glow red in field. The pattern is very discrete and comes to life in the evenings when the ligt is switched on. The design of the luminaire is scandinavian simple and modern. Laaka ceiling-plafoniere
The high-quality Laaka plafoniere is designed by Laura Väre. Laura has gotten the inspiration for the luminaire from the hanging-lamp of the same series. The luminaire consists of a opal-white glass shde and a steel base. The glass shade disperses a smooth and uniform light. The luminaire can also be installed as a wall-light. It has a diameter of 28 cm. It is fitted with two E27 lampholders, which facilitates for a great deal of light if needed. The white glass-shade softens the light pleasently.

Puls table lamp

The Puls table lamp is an ultra-modern table lamp with a minimalist, geometric design, which is suitable both as a work lamp on an office table or as an ornament on a shelf or in a window. It's the lamp for those who want life to pulsate! The white cylinder-shaped lamp head with a gold-coloured ring is directional so you can point the light in any direction. The gold-coloured metal frame has that look of luxury and is echoed in the lampshade's ring.

Golden 30 table lamp

This beautiful table lamp is the shorter model of the Golden Table Lamp with an overall height of 30 cm and a diameter of 10 cm. With its neat appearance, Golden is ideal for most spaces and makes for a perfect addition to a narrower window frame. Like all of Golden's relatives in the same series, the table lamp has an opulent amber-coloured glass with a speckled finish, which elevates its overall appearance. The base and detailing of the lamp are in an aesthetic matte gold colour.

Golden Bar hanging lamp

The Golden Bar Pendant Light is strikingly beautiful with an upscale feel, featuring a matte gold frame and speckled, amber mouth-blown glass. The golden tones of the light lend to its warm, welcoming and homely feel. Due to it being a pendant light with three glass shades, it suits perfectly over a dining table or kitchen island.
The length of the base is 80 cm – which means that the lamp still feels relatively small and therefore adds to your home without taking up the whole room.

Bali floor lamp
Modernity, tendence and nature meet in a glorious splendour in the Bali floor lamp. The lamp has an exotic touch with bound bamboo strands, reminiscent of a little bamboo hut. With an amber-coloured light source, the lamp radiates a real cosy feeling in the corner where it stands. The light source is bought separately and this lamp requires a light source with an E27 socket. The frame and base are made of black metal and provide a superb contrast to the rustic lampshade.

The Bali floor lamp is 150 cm high with a diameter of 48 cm. It is easy to move the lamp as the cord is a generous 250 cm long. With Bali in your home, you'll never feel fed up with your interior design. Put it beside a picture wall full of natural themes, in a reading cove or by itself in a corner. The Bali floor lamp stands out in a fantastic way.

The Seagrass Floor Lamp is a large and mighty lamp with its generous 120 cm in height. The diameter of the widest area measures 38 cm. Seagrass is perfect for those who can't get enough of the natural style in both colours and materials. You can put it in your bedroom, living room or hallway – the beauty of a floor lamp is that it's easy to move around! You'll need two E27 base light bulbs for this floor lamp, and we suggest a size of 90 mm so that the light bulbs don't look too small in the lamp. We recommend choosing an amber-coloured bulb to get that soft, cosy glow when you switch on the lamp. The cord is 250 cm	H: 120 cm Ø: 38 cm 2 X E27 Max. 40W IP20	4100870-4000	7391741008749
Seagrass hanging lamp Seagrass is a lightly built hanging lamp. This sea grass construction brings a bit of nature into your room.	H: 55 cm Ø: 48 cm E27 Max. 60W IP20	4200010-5507	7391741000125
Seagrass hanging lamp Is your home decorated in a natural style, and are you are looking for a simple, beautiful lamp to enhance this ambience? If so, the Seagrass pendant light is just the thing for you. Seagrass is completely handmade, and the natural coloured lampshade is made of seaweed material, while the black one is made of coloured jute. This pendant light creates a homey and cozy environment and gives your home a warm feeling. The pendant light looks very nice above a dining table or a kitchen island, for example - but it also looks very pretty and cool in pairs above a larger table. For Seagrass, you need a light source with an E27 fitting of 95 mm, and we recommend an amber coloured one to make the light as beautiful as possible. The black textile cable is 120 centimetres long and the lamp can be raised and lowered. The lamp itself is 55 centimetres high and has a diameter of 49 centimetres. | | | The Diego ceiling lamp is a rustic and handmade rattan lamp. It can be raised and lowered to produce that individual interior design feeling. The round shape and diaphanous rattan together with a recommended amber-coloured light source give you a unique ceiling lighting that is suitable both above a dining table as well as in the middle of the lounge – in the countryside or in a city home. The lamp's height is 26 cm and its diameter is 48 cm. The cord length is up to 120 cm so you can easily choose how far up or down you want the lamp to descend. The Diego ceiling lamp is dimmable.

The light source with an E27 socket is bought separately in addition to the lamp. It should be 60 mm in diameter and, as said before, gives the best glow if it is amber-coloured. Check out the Diego floor lamp if you are curious about other products from the same line. | Ø: 48 cm E27 Max. 40W IP20 | | |

	Colby table lamp The Colby Table Lamp is the newest addition to the popular Colby family. The lamp has a simple cylindrical metal base and a sizeable aura-like plate on top. The plate also has a beautiful pattern that gives the lamp that extra oomph. What's extra clever about the Colby Table Lamp is that it can be positioned in two different ways, so it looks like two different lamps – with the plate at the front or at the back! This is why we've chosen to place the cord at the side of the lamp, so that you can choose which way you want the lamp to face. This also means that the lamp will always look stunning from the outside if you choose to put it in a window! The Colby Table Lamp comes in three different colours: black, gold or white. You'll need an E27 base light bulb, with a circumference of 60 mm. Both clear glass and amber bulbs suit the Colby – so choose whichever colour you like best! Quinn window lamp
Furnishing with lamps is as much a design detail as a functional must. Light affects our mood and well-being, often without us even realising it. The Quinn window lamp is a perfect example of this. It works equally well as a window lamp or a ceiling pendant and can be placed anywhere in the room. Thanks to the switch on the cord, you can control how you want to illuminate the spot above a sideboard or the home's hallways, for example.

Quinn comes in matte black metal and matte brass, which is one of the most stylish and popular combinations right now. It has a height of 12.5 cm and a cord length of 350 cm, so you can decide how high or low you want to place it. For this model we recommend a light source in the colour amber.
