SPEAK UP!

Works with app

The Calex Smart items are super easy to operate with the free Calex App.

Works with voice command

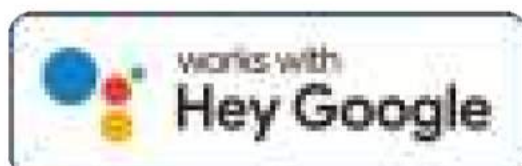

Call out what you want your Calex Smart product to do for you.

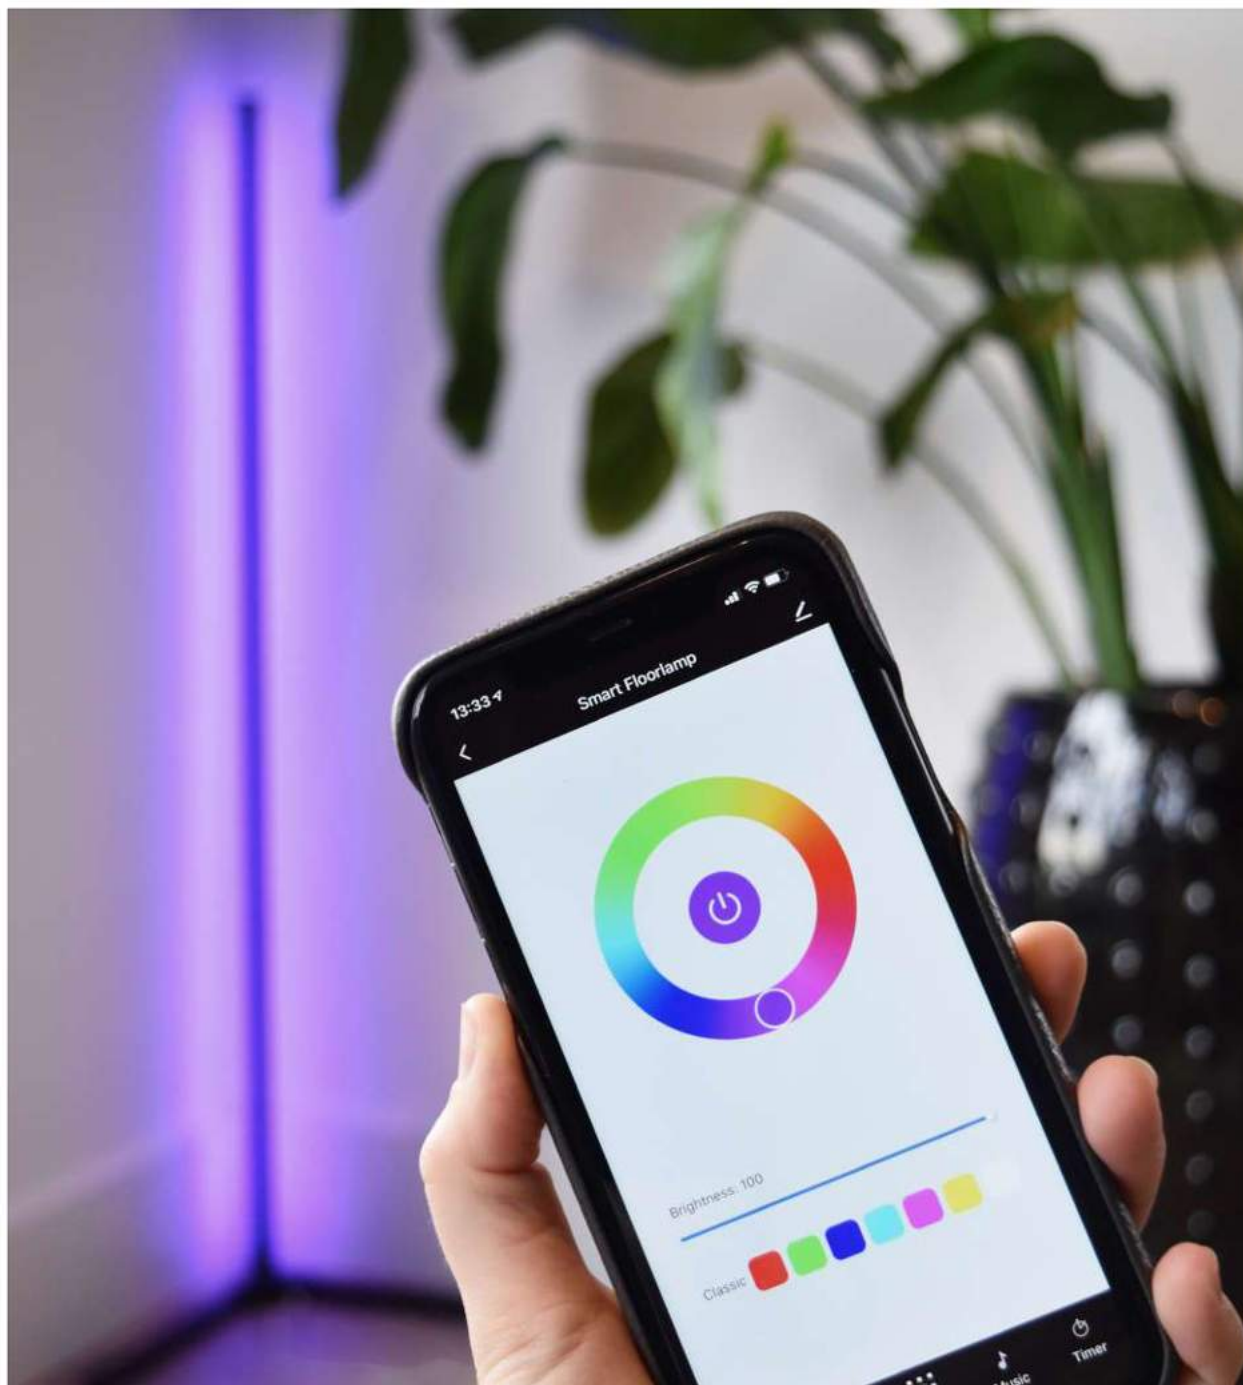

VOICE COMMAND

The voice control function on most of our smart bulbs and devices lets you control them with spoken commands.

Use your voice to change the settings of your bulbs or simply activate your items. Please note, not all items have this function.

Please check the packaging of the product for compatibility with voice command.

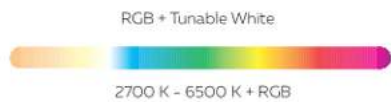

CREATE YOUR OWN AMBIANCE

- INDOOR

The products in the indoor collection are super versatile. Switch from functional lighting to colorful ambiance in a second using voice command or the free Caalex app. Creating your own ambiance and setting your personal preferences has never been easier.

The power of bluetooth mesh

A bluetooth mesh network consists of a hub and one or more bluetooth mesh devices which pick up and extend the signal as long as they are within range of each other (max. 15 m). Thus greatly improving the range outside your home.

All it requires is having the calexLINK hub set-up within your local WiFi (2.4 GHz) network. The calexLINK connects WiFi to Bluetooth.

The calexLINK is sold separately.

All-in-one App

The 'calexLink' is fully integrated with the Calex Smart App, easy to install in 3 steps and works with Amazon Alexa, Google Home and Apple's Siri Shortcuts.

Download the app

Scan the qr-code or search for Calex Smart in the store to download the free app for smartphones and tablets to control Calex Smart products.
